Global Cities Strategy

Helping CCC ministries move ahead with the Leader-led mission-critical component of CCC's planning pyramid. Our vision is to seek movements of spiritual multiplication and societal transformation in cities for decades to come.

- Pray for Global Cities III – Mexico City 2009 Consultation, Sept. 22-27. We are expecting 100 CCC staff and marketplace leaders. Today's generation of Marketplace Christians want to respond to God and carry the kingdom of God to every corner of their cities; some know how but many do not. We will hear from those who have discovered their own calling in the marketplace and will work on best ways to move marketplace Christians into kingdom leadership. We want to answer: If the needs of the Great Commission require us to mobilize the 20 million kingdom leaders, what will that look like?
 - Pray that God will stimulate energy, information, understanding, and direction so that the participants are better able to equip CCC staff and kingdom leaders in their spheres of influence, toward "movements everywhere" across their cities.
 - That participants will see what God is doing and take home ideas for their cities.
 - That participants will listen to God and then obey what He has told them to do.
- Pray each Global Cities Team staff member will have full financial support by the end of 2009.
- Please pray for movements of spiritual multiplication to grow and multiply in the cities around the world where CCC staff are currently working.

Global Coverage

Global Leadership Development

Andrea Buczynski

We praise God for:

- The initiative leaders in the movement are taking and the commitment they are making to develop their staff.
- How He is working in the development of future leaders via emerging leader initiatives.
- New LD leaders He is raising up in several AOAs.

Join with us in praying:

- That every team leader would make the time and effort to ensure that each staff member on the team is in a developmental process - receiving feedback, a development plan and clarity of job focus.

- That every leadership team (national, area, global) would be diligent to seek the Lord for direction, preserve the unity of the Spirit, and work together well in preparing leaders for Movements Everywhere.
- That every staff member would have an accurate assessment of him or herself (Romans 12:3), receive instruction and feedback with grace, and speak the truth with love.

Global Media Outreach

Praise:

- Praise for the incredible growth in the number of people being touched by the gospel. Our prayer goal for 2008 was 2 million, and by 12/21/08 we had recorded 3,097,314 indicated decisions for Christ.
- Praise for the 2,300 online missionaries who conduct gut-level evangelism and discipleship with seekers from around the world 24/7.
- Praise for the successful launch of our cell phone evangelism platform and www.iChristianLifeRadio.com .

Prayer requests:

- For growing numbers of online missionaries (especially those who are bi-literate) to join. They can apply at www.GMOJoinUs.com .
- For more staff members to join GMO as Community Leaders, shepherding the growing numbers of online missionaries.
- For sufficient funds to enable GMO (along with other ministries) to give everyone on earth 5-10 opportunities to come to know and follow Christ before 2020.
